UNPLUGGED CLASSROOM
with
SIX BRICKS

The Unplugged Classroom program is a solution that provides teachers with the resources to be able to teach students the fundamentals of computing without ever needing a computer. By providing a foundation for the concepts that form part of our every day working lives, Unplugged Classroom not only makes it easier for students to adopt technology, but also provides a safe place they can return to if the advanced topics seem a little out of reach.

Effective from the 1st of February 2023 - Subject to change.
All prices inclusive of VAT.
Free Delivery for orders over R500 (Major Cities Only)
